**2008 Peru Tour:
Yanacocha Gold Mine
July 8, 2008**

Cautionary Statement

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are intended to be covered by the safe harbor created by such sections. Such forward-looking statements include, without limitation, (i) estimates of future mineral production and sales; (ii) estimates of future costs applicable to sales, other expenses and taxes for specific operations, and on a consolidated basis; (iii) estimates regarding timing of future capital expenditures, construction, production, or closure activities; and (iv) statements regarding potential cost savings, productivity, operating performance, and cost structure. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, gold and other metals price volatility, currency fluctuations, increased production costs and variances in ore grade or recovery rates from those assumed in mining plans, political and operational risks in the countries in which we operate, and governmental regulation and judicial outcomes. For a more detailed discussion of such risks and other factors, see the Company's 2007 Annual Report on Form 10-K, filed on February 21, 2008, with the Securities and Exchange Commission, as well as the Company's other SEC filings. The Company does not undertake any obligation to release publicly revisions to any "forward-looking statement," to reflect events or circumstances after the date of this news release, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

Agenda

Breakfast, Welcome and Safety – 8:00 am to 8:30 am

- Welcome – **John Seaberg**, Vice President, Investor Relations

Presentations - 8:30 am to 11:00 am

- Welcome – **Carlos Santa Cruz**, Regional Vice President
- Video
- Safety, Environmental and Social Responsibility – **Tito Campos**, Regional Group Executive ESR
- Continuous Improvement and Best Practices – **Dave Schummer**, Manager of Operations
- Operational and Financial Overview– **Jorge Da Silva**, Interim Regional Group Executive Business
- Yanacocha Gold Mill – **Tony Esplin**, Process Manager
- Conga – **J.J. Patti**, Business Manager – Conga
- Exploration and Land Position – **Brian Arkell**, Director of Geology and Near Mine Exploration
- South American Regional Opportunities – **Brian Arkell**, Director of Geology and Near Mine Exploration
- Closing Remarks/Q&A – **Carlos Santa Cruz**, Regional Vice President

Mine Tours – 11:00 am to 5:00 pm

- Drive to Maqui Maqui Exploration Station – (Lunch Provided)
- Mirador (Top of the World)
- San José Reservoir
- Yanacocha Norte
- Gold Mill
- La Quinoa Lookout
- Return to Cajamarca

Dinner – 7:00 pm, Laguna Seca

July 8, 2008

dawning**

**Safety,
Environmental and
Social Responsibility**

Tito Campos, Regional Group Executive ESR

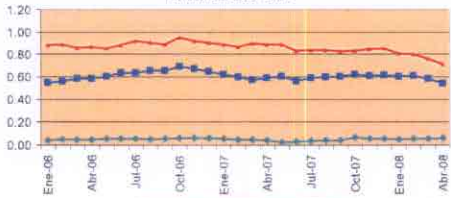

Safety

- Obtaining Occupational Health and Safety Assessment Series 18001 certification (OHSAS 18001)
 - Full training program for workers (including contractors)
 - Awareness campaigns developed with full participation from workers
 - Defensive driving programs
- Lower accident rates than average US metals mining operation
 - Award winning safety record

6

Employee, Community and Government Relations

Employee and Community Relations

- Improved labor climate
- Reduced reliance on contracted workers
- Focused on land access and social acceptance, and working in association with communities and relevant authorities

Government Relations

- Central government offers legal stability while encouraging investment
- Constructive relationship with Central and Municipal Government

ISO 14001

- First major mining project in Peru to receive ISO 14001 certification
- Four audits planned over next two years
- Regular environmental inspections scheduled by OSINERGMIN⁽¹⁾

Certified under the International Cyanide Code

July 8, 2008 ⁽¹⁾OSINERGMIN is Peru's supervisory organization for investments in energy and mining

7

San José Reservoir

- Inaugurated April 28, 2008 by Peruvian President, Alan García Perez
- Capacity of 6 million cubic meters
- Provides year-round water source for agriculture and livestock
- Benefits more than 5,000 people
- \$25 million investment

July 8, 2008

8

President Garcia's Speech

July 8, 2008

9

Voluntary Contribution

"Yanacocha Solidarity Fund with Cajamarca"

- Private fund to promote development and solidarity with the people of Cajamarca
- Agreement signed with the Peruvian Government in December 2006
- Contribute 3.75% of net profits for up to 5 years, estimated total value of ~\$50 million

Objectives and Focus:

- To promote well-being, social development, urban infrastructure improvement and quality of life in surrounding communities
- Priorities are nutrition, education and health
- Funding the Project for the Reduction of Children's Chronic Malnutrition (PREDECI)
- Funded ~180 school libraries and ~14,000 educational kits
- Examples of projects include:
 - Cajamarca hospital development
 - Chonta river dam
 - Livestock market

July 8, 2008

10

Los Andes de Cajamarca Association (ALAC)

- Corporate organization to promote sustainable human development in region
- 12,000 new jobs; \$17.2 million increase in sales from local entrepreneurs
- Youth development and educational scholarship programs
- Building bridges with the community

July 8, 2008

**Continuous
Improvement and
Best Practices**

Dave Schummer, Manager of Operations

Continuous Improvement

Gold Medal Performance (GMP)

Golden Ideas

Academy Projects

Non Academy Projects

Facilitation

Training in GMP+ Methodology

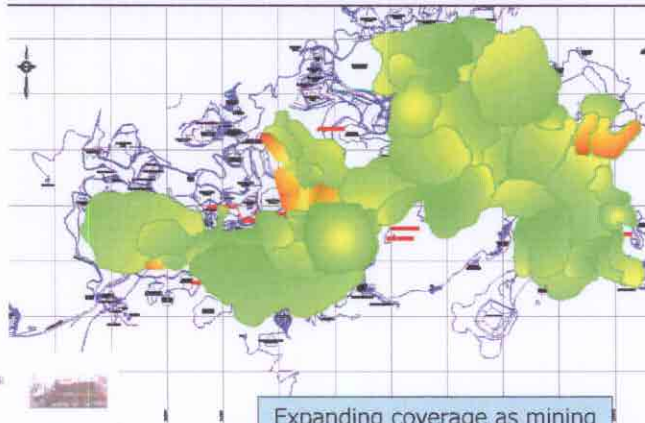

Strategic Objectives

- Support the continuous improvement of management systems and components
- Foster innovation and emphasize Continuous Improvement culture
- Improve communication and integration with suppliers
- Motivate, retain and develop GMP professionals
- Estimated 2008 savings of ~\$7.6 million

July 8, 2008

13

Wireless at Operations: Technology Enabler

Expanding coverage as mining operations grow

July 8, 2008

14

Continuous Improvement

Fleet Management Optimization

- Better cycle times
- Reduce queue and hang times
- Managed in real-time for better decisions
- Internet-based cameras are the eyes of the dispatchers
- Additional ~2.1 million tonnes per annum

July 8, 2008

15

Real-Time and Historical Reporting

- Database with real-time integration into Windows
- Unique dashboards provide real-time, critical performance information to pit supervision department
- Tablet PC's installed in pit supervision vehicles to allow consistent access of information
- Significant increase in mining efficiency

July 8, 2008

16

High Precision GPS for Drills

- Enhanced drilling accuracy
- Blast design optimization
- Improved drilling productivity
- 2% more accurate pattern design saves ~\$200,000 per annum
- Cost improvements through reduced over-drilling and secondary blasting

July 8, 2008

17

Payload Improvement & Monitoring

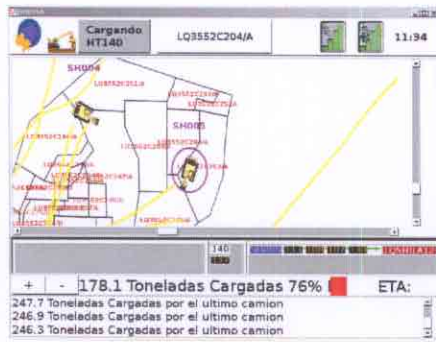

- Unique real-time monitoring system
- Integrates fleet management system and haul truck VIMS (Vital Information Monitoring System)
- Identification of deviations from target payload
- Identify and correct maintenance issues immediately

July 8, 2008

18

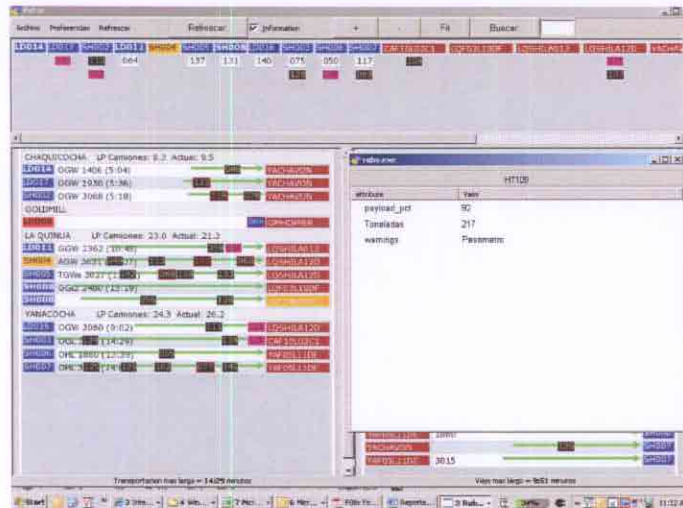

Payload Improvement & Monitoring

July 8, 2008

19

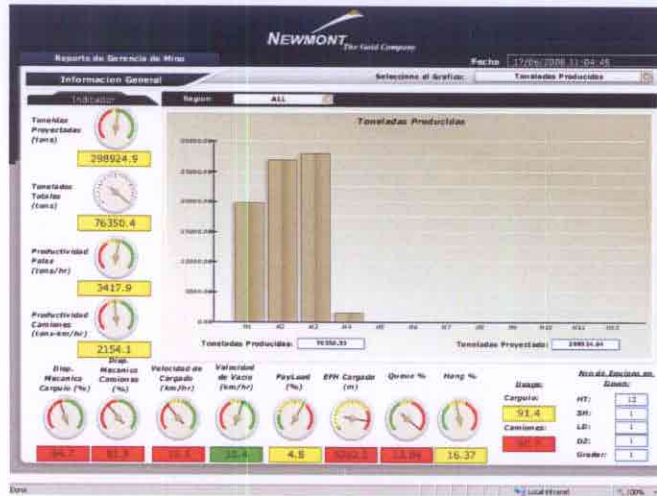

Payload Improvement & Monitoring

July 8, 2008

20

Payload Improvement & Monitoring

July 8, 2008

21

Continuous Improvement

Payload monitoring and optimization to improve life of components while maximizing fleet utilization

- Additional ~2.3 million tonnes per annum

Using solar LEDs to improve lighting

- Fog mitigation
- Improve speed
- Additional ~1.0 million tonnes per annum

July 8, 2008

22

Continuous Improvement

Loading blast holes during night shift

- Reduced downtime due to electrical storms
- Additional ~1.0 million tonnes per annum

Real-time monitoring of contracted services and rental equipment productivity

- \$1.0 million savings per annum

July 8, 2008

23

Haul Truck Speed Management

- Real-time radar monitoring of haul truck speed
- Speed, gear selection and brake temperature displayed onboard and versus target for the specific location
- ~5 million tonne per annum increase for 1km/hr improvement

Radar

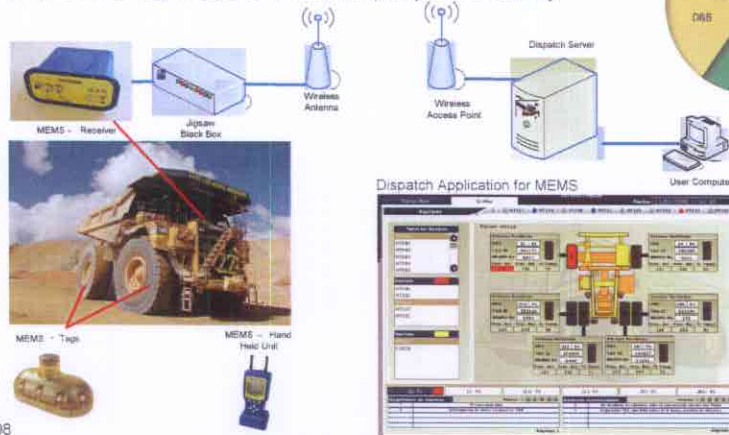

July 8, 2008

24

Continuous Improvement

- MEMS - Michelin Earthmover Management System
- Real-time monitoring of tire pressure and temperature
- Improved tire life, reduced downtime, improved safety

July 8, 2008

Yanacocha Gold Mill

Tony Esplin – Process Manager

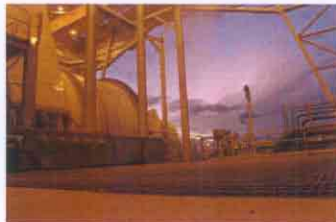

Gold Mill

Commercial Production Achieved April 1, 2008

Safety First

- Safety record through commercial production
 - Lost Time Accident Rate: 0.03
 - Total Reportable Incident Frequency Rate: 0.71
- ~3.5 million man hours without a lost time accident

Business Objectives

- Prepare for complex ores within the region
- Efficiently exploit resource potential
- Improve financial returns

Commercial Production April 1, 2008

- Declared commercial production within 1 week of start-up
- Final capital costs of ~\$240m
- Versus budgeted capital of ~\$250m

July 8, 2008 32

Gold Mill

Mill Processing

- Primary crushed Run of Mine ore
- Single Stage SAG Mill
- Pre-leach thickening followed by 24 hour agitated leach residence
- CCD (Counter Current Decantation) circuit:
 - Solid liquid separation to achieve higher recoveries to a pregnant solution
- CIC (Carbon in Column) at La Quinoa
- Improved gold and silver recovery

July 8, 2008

33

Gold Mill

First Five Years

Milling

- Throughput design: ~5 million tonnes per annum
- Processing high-grade and transitional ores

Consolidated Production

- Annual average: 400,000 – 500,000 ounces
- CAS: \$250 - \$320 per ounce

Enhanced Recoveries

- Gold recoveries of 75%-85%
- Silver recoveries of 60%-75%

July 8, 2008

34

Gold Mill - Success

- Ramp up 10% over plan
- YTD gold production : ~84,000 ounces
- YTD silver production: ~340,000 ounces

July 8, 2008

35

Gold Mill Success

Success Factors

- Utilized world-class portfolio of operations to train gold mill operators
- Rigorous capital management system
- Disciplined scheduling through benchmarking expected ramp-up
- Leading to a...

SUCCESSFUL START-UP

Gold Mill Targets

- Extend mine life at Yanacocha
- Improve gold and silver recoveries
- Allow processing of some complex and transitional ores
- Begin transition to next phase of Yanacocha operations

Conga

Location

- 73 km Northeast of Cajamarca and
- 29 km East of Yanacocha

Business Objectives

- Sustain regional production and presence
- Identify additional opportunities

Key Statistics (Equity)

Deposit	Gold / Copper Porphyry
Reserves	6.1 million ounces of gold 1.7 billion pounds of copper
Mining Method	Open pit
Average Annual Production	250,000 – 400,000 oz gold 90 – 115 million lbs copper

Exploration

Yanacocha Equity Reserves and Resources 2007

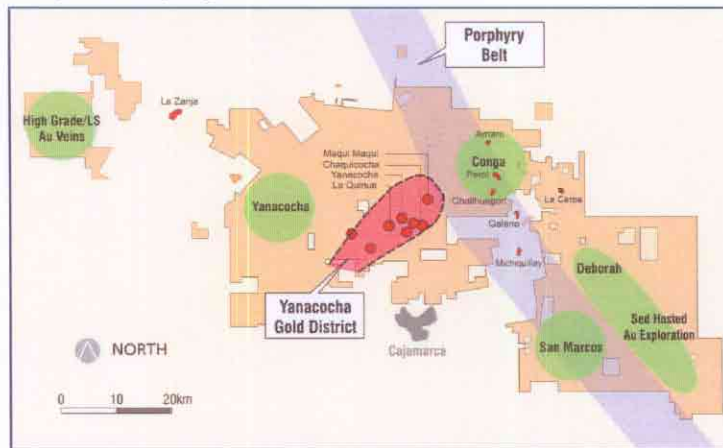

July 8, 2008

41

Mineral Concessions & Advanced Exploration Projects

- 330,000 hectare position in prospective region
- 2008 exploration program: ~\$25m

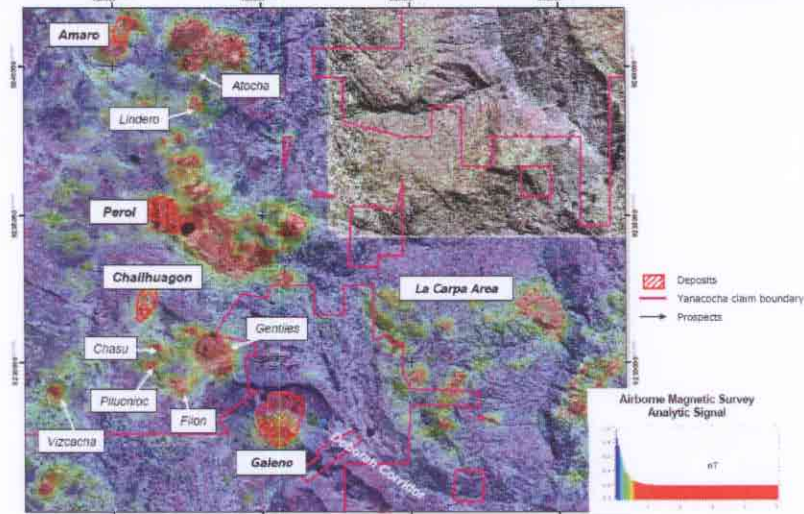

July 8, 2008

42

Conga Region

Porphyry Au-Cu Exploration

July 8, 2008

43

La Carpa Prospect

July 8, 2008

44

Yanacocha Development Projects

July 8, 2008

45

Yanacocha Sulfides Target

	Tonnes	Gold (g/t)	Copper	Silver (g/t)
Yanacocha Verde (Sulfide)	~115 million	0.7	0.8%	24
Yanacocha Verde (Oxide)	~180 million	0.6	-	15
Chaquicocha Sulfides	~15 million	6.0	0.3%	-
Maqui Maqui Sulfides	~16 million	1.4	0.5%	-
Total Yanacocha Sulfide Target	~326 million	0.9	0.3%	17

- Significant upside potential in the region
- Drilling continuing at Yanacocha Verde; unconstrained copper-dominant system
- Ongoing exploration for high-grade (+10 g/t) extensions at Chaquicocha

July 8, 2008

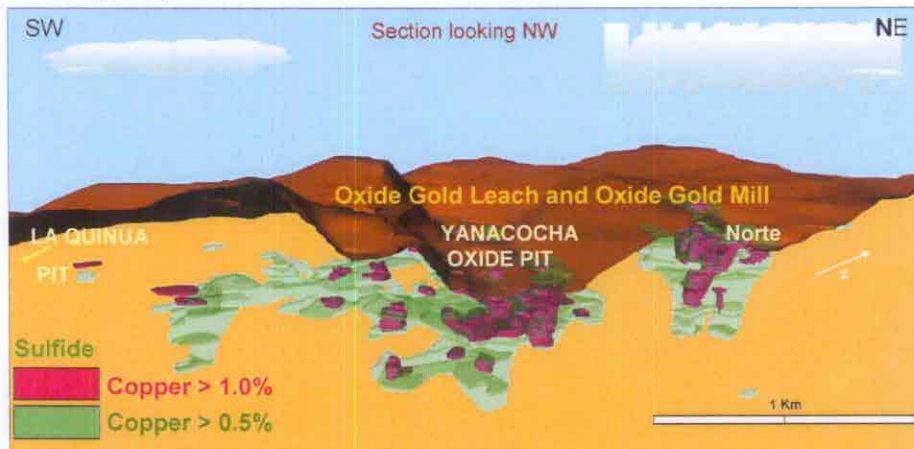

46

Yanacocha Sulfides Target

Yanacocha Verde

- Target is ~295 million tonnes at 0.6 gram/tonne gold, 0.3% copper and 19 grams/tonne silver

July 8, 2008

47

Yanacocha Sulfides Target

Chaquicocha Sulfides

- Target is ~15 million tonnes at 6 grams/tonne gold and 0.3% copper
- Drilling, updated geology and resource modeling underway

July 8, 2008

48

Yanacocha Sulfides Target

Maqui Maqui Sulfides

- Target is ~16 million tonnes at 1.4 grams/tonne gold and 0.5% copper

July 8, 2008

South American Regional Opportunities

Brian Arkell, Director of Geology and Near Mine
Exploration

Leveraging Newmont's Peru Operations

**Greenfields 2008 budget excludes technical specialists and Opportunity funds*

July 8, 2008

51

Nassau, Suriname

- Earning an 80% ownership in JV with Alcoa
- 4 years of exploration by Newmont
- Current potentially mineable resource:
 - ~60 million tonnes
 - 1.4 grams/tonne gold
- \$17 million budgeted for exploration in 2008

July 8, 2008

52

Seeking Business Partnerships

Flexible, Creative Business Arrangements

- Partnerships & Joint Ventures
- Private Placements
- History of partnerships in Latin America
- Track record of success

Newmont's Value Proposition

- Proprietary exploration technologies
- Innovative processing techniques
- Technical specialists
- Proven global business experience
- Capital investment for robust opportunities

July 8, 2008

53

Most Recent Partnerships

11-Jun-2008

Cardero Resource Corp. ("Cardero" or the "Company") -- (TSX: CDU, AMEX: CDV, Frankfurt: CRS) is pleased to announce that it has signed the formal agreement with respect to the commercial terms for the formation of a regional exploration alliance ("Alliance") with Newmont Ventures Limited ("Newmont"), a subsidiary of Newmont Mining Corporation (NYSE: NEM) to jointly conduct exploration for a variety of gold deposit types in north-west Argentina.

28-Apr-2008

Vancouver, British Columbia, April 28, 2008 (TSX Venture: EMX) -- **Eurasian Minerals Inc.** (the "Company" or "EMX") is pleased to announce the establishment of a Joint Venture and Regional Strategic Alliance (the "Agreement") with Newmont Ventures Limited ("Newmont") for gold exploration in the Republic of Haiti. The Agreement includes a private placement, a joint venture on the La Miel gold project, and a regional strategic exploration alliance that covers northern Haiti.

19-Feb-2008

Vancouver, BC, February 19, 2008 -- **Magellan Minerals Ltd.** is pleased to announce that on February 15, 2008, it successfully completed its initial public offering ("IPO") by way of Prospectus dated effective January 22, 2008.

A total of 11,000,000 units were issued by Magellan at a price of \$1.00 per unit for proceeds of \$11,000,000. Each unit is comprised of one common share and one-half share purchase warrant. Each whole Warrant entitles the holder thereof to acquire one common share at a price of \$1.50 per share exercisable on or before 18 months from the closing date. Newmont Mining Corporation of Canada Limited ("Newmont") purchased 2,500,000 units of the IPO.

12-Feb-2008

Mount Pearl, NL, Canada: Cornerstone Capital Resources Inc. (TSXV-CGP) (F-GWN) (B-GWN) (OTC-CTNXF) today announced that it has signed a definitive Earn-in Joint Venture option agreement with Newmont Ventures Limited, a subsidiary of Newmont Mining Corporation (NYSE: NEM) with respect to the formation of a regional exploration alliance ("Alliance") to explore for gold in southern Ecuador.
