NEWMONT™
The Gold Company

Cautionary Statement

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are intended to be covered by the safe harbor created by such sections. Such forward-looking statements include, without limitation, (i) estimates of future mineral production and sales; (ii) estimates of future costs applicable to sales, other expenses and taxes for specific operations, and on a consolidated basis; (iii) estimates of future capital expenditures, construction, production, or closure activities; and (iv) statements regarding potential cost savings, productivity, operating performance, cost structure and competitive position. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, gold and other metals price volatility, currency fluctuations, increased production costs and variances in ore grade or recovery rates from those assumed in mining plans, political and operational risks in the countries in which we operate, and governmental regulation and judicial outcomes. For a more detailed discussion of such risks and other factors, see the Company's 2007 Annual Report on Form 10-K, filed on February 21, 2008, with the Securities and Exchange Commission, as well as the Company's other SEC filings. The Company does not undertake any obligation to release publicly revisions to any "forward-looking statement," to reflect events or circumstances after the date of this news release, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

Explanation of Non-GAAP Measures and Certain Metrics

This presentation contains the non-GAAP financial measure adjusted net income and a reconciliation of adjusted net income to net income calculated in accordance with GAAP. Adjusted net income is not, and should not, be used in isolation or as an alternative to GAAP net income as reflected in the Company's consolidated financial statements. For further information concerning the use of adjusted net income by the Company and analysts, see the 2008 Earnings Release on Form 8-K furnished by the Company to the Securities and Exchange Commission on or about July 24, 2008, and the Company's other SEC reports.

The Year In Review

- ☑ New management team in place
- ☑ Renewed focus on core business
- ☑ Continued to establish operating performance record
- ☑ Demonstrated leadership in safety, sustainability and environmental responsibility
- ☑ Deliver Yanacocha gold mill
- ☑ Deliver Nevada power plant

- ☐ Continue to deliver consistently strong operating and project performance
- ☐ Deliver Boddington project
- ☐ Update Hope Bay development plans
- ☐ Stage gate decisions on Conga and Akyem

Operational Execution

In the last 12 months:

Where we want to be in 12 months:

- Continue to deliver consistently strong operating performance
- Execute on revised Phoenix mine plan
- Progress Batu Hijau divestiture

Project Pipeline

Project Execution

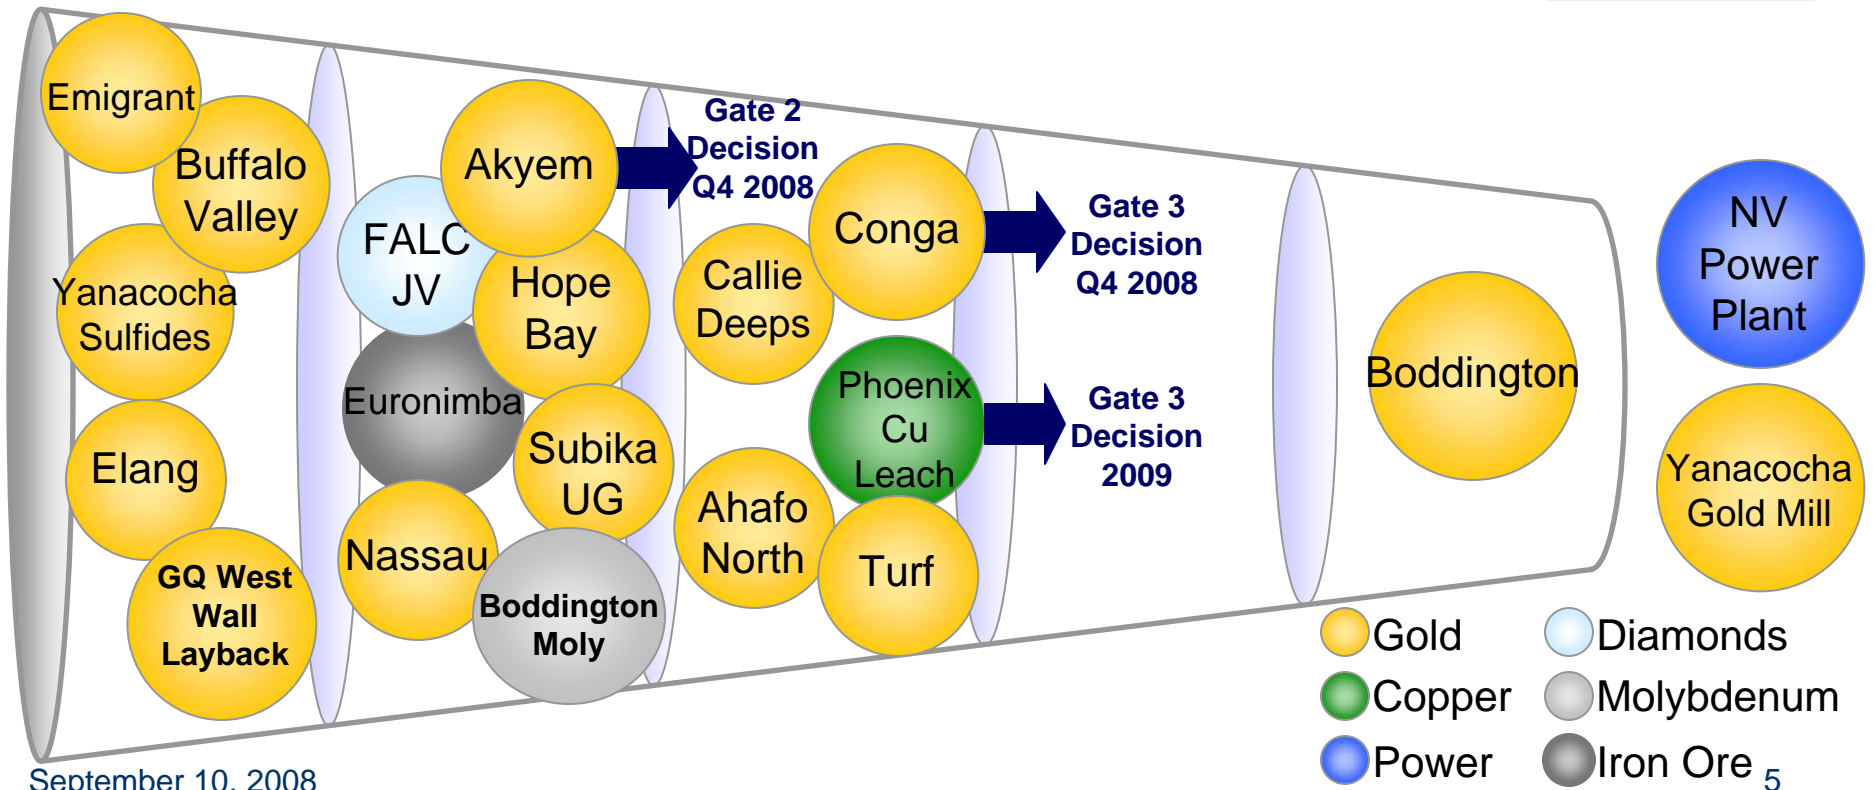

Gate 1
Advance viable
business
opportunities

Gate 2
Determine if a
Business Case
exists

Gate 3
Select a single
option to achieve
Business Case

Gate 4
Ensure single option is
optimized, predictable
and competitive

September 10, 2008

Boddington

Project Execution

- ~83% complete as of August 31st
- Upon completion, will be Australia's largest gold producer and a major contributor to Newmont's annual gold production
 - First 5 year average annual equity production of 600k to 700k ounces
 - Expected mine life in excess of 20 years
- Ongoing industry-wide inflation and tightening Australian labor market expected to extend schedule, resulting in higher costs
- Working closely with our partners toward project start-up in early to mid 2009
- Will provide updated capital cost estimate and project completion schedule during the third quarter earnings call

Nevada Exploration Target: Turf

Exploration and Growth

Turf

- ~1 km NW of Leeville
- Driving drift over top of target
- Prospect is larger than surface drilling indicated
- High-grade (+15 g/t) upside potential
- 2008 budget of ~\$4 million

Callie Deeps, Australia

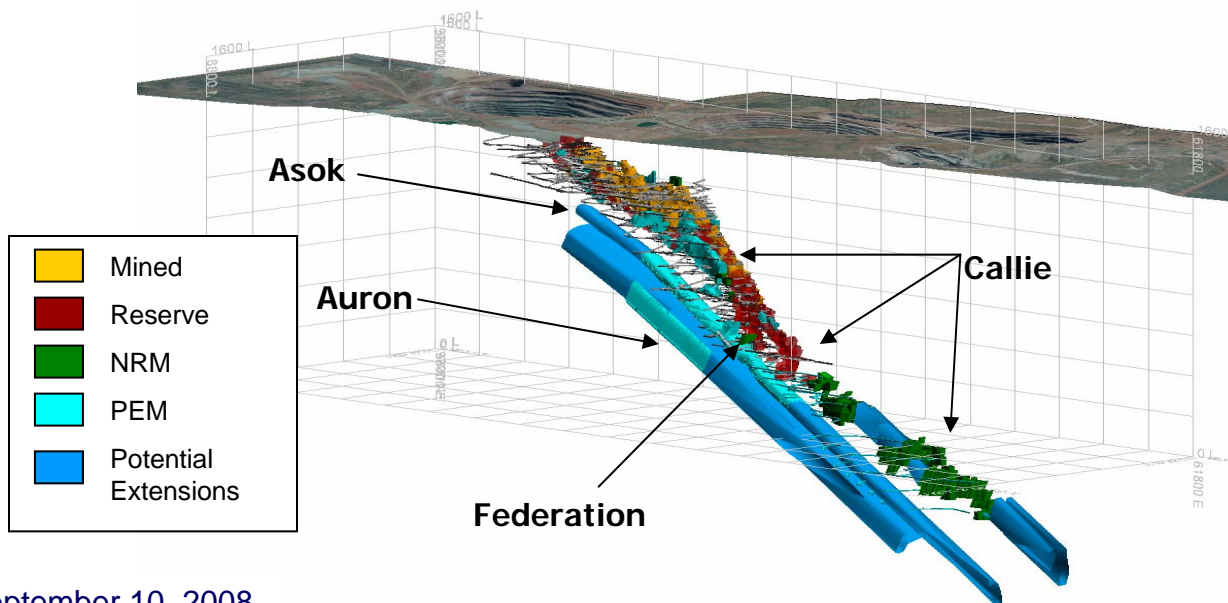

Exploration and Growth

- Drilling for NRM and reserve conversion
- Base case of ~25 million tonnes at 4.5 grams per tonne
- Located in AAA-rated country
- Metallurgical testing underway

Selected Auron and Asok Intersections

25m @ 6.0 g/t
 39m @ 11.9 g/t
 35m @ 6.3 g/t
 5m @ 36.1 g/t
 18m @ 5.6 g/t

Visible Gold from Auron core

Hope Bay, Canada

Exploration and Growth

Project Status

- Year-round airstrip and Doris road complete
- Camp infrastructure under construction
- Drilling campaign targeting NRM in 2009
 - ~\$30 million budget in 2008
- Stage 2 studies underway
 - ~\$40 million budget in 2008

H1 2008 Highlights

- Adjusted net income⁽¹⁾ of \$616 M (\$1.36/share)
- GAAP net income of \$647 M (\$1.43/share)
- Net cash provided from continuing operations of \$976 M (\$2.15/share)
- Equity gold sales of 2.56 Mozs at CAS of \$417/oz
- Commercial production at Nevada power plant and Yanacocha gold mill
- **Only NA senior to maintain gold sales and cost guidance through Q2**

Why Newmont?

- **Most value per share in the peer group**
 - Highest NA senior gold sales per share in H1 2008
 - Highest EPS and CFPS in H1 2008
 - Highest per share leverage to the gold price (RBC, BMO, CIBC, JPMorgan)
 - Only NA senior to maintain gold sales and cost guidance through Q2 2008

⁽³⁾ Refer to Slide 21 for reconciliation to GAAP Net cash provided from (used in) operations

Leading the Peers in Cost Containment

Cost inflation from 2007 actual costs to latest 2008 guidance (\$/oz)

Source: Company reports

⁽¹⁾ Gold equivalent basis

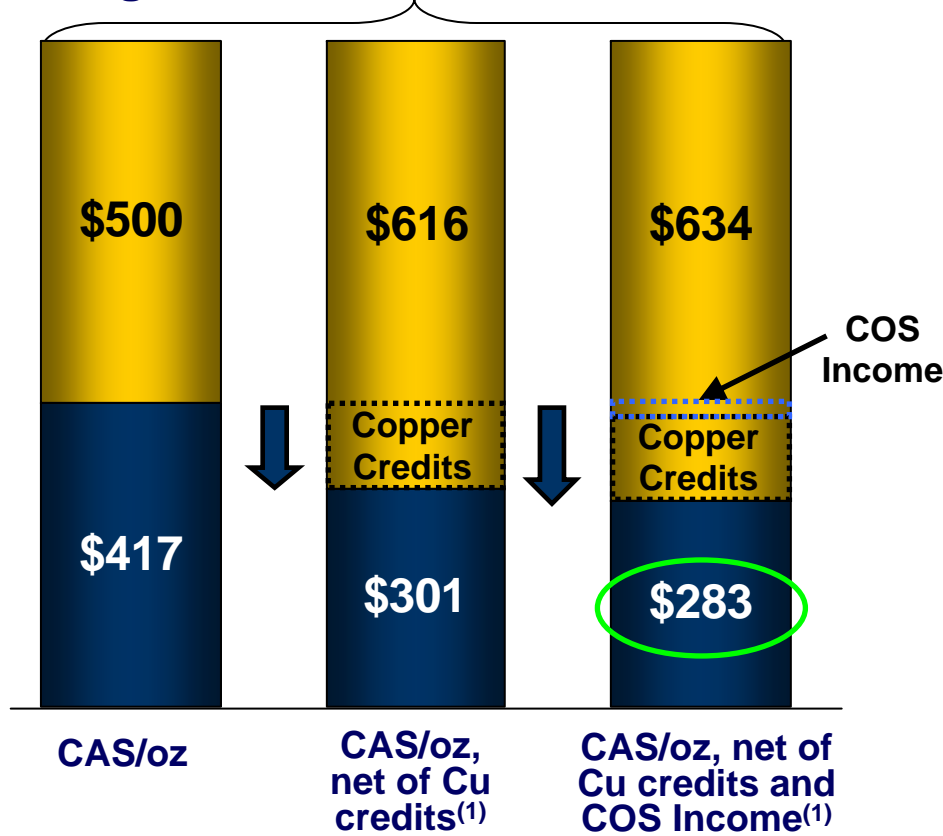

⁽²⁾ Represents actual results from fiscal years ended June 30, 2007 and June 30, 2008

⁽³⁾ By-product basis. Guidance is "Less than \$300/oz"

Another View of Costs

First Half 2008

Avg. Realized Gold Price = \$917

Managing gold production costs

- Canadian Oil Sands Trust
 - Unrealized gain of ~\$1.1 B⁽²⁾
 - Cash distributions of ~\$120 M in 2008⁽³⁾
 - Distributions offset ~25% of Newmont's oil exposure⁽³⁾
- Nevada power plant estimated annual CAS savings of ~\$70 – \$80 million
- Active A\$ and diesel hedging programs

(1) Refer to slide 22 for a reconciliation to Costs Applicable to Sales per ounce

(2) As of September 5, 2008

(3) Based on Q2 unit distributions of \$1.00 per unit remaining constant in Q3 and Q4

Superior Per Share Leverage

RBC Estimated Cash Flow per Share Leverage to the Gold Price

Financial Strength and Flexibility

In the last 12 months:

- ☑ Divested non-core royalty assets for ~\$1.3 billion
- ☑ Eliminated hedge book at ~\$655/oz
- ☑ Nearing completion of 5 year intensive capital reinvestment period
- ☑ Holding Canadian Oil Sands

Where we want to be in 12 months:

- ☐ Continue to deliver consistently strong operating and project performance
- ☐ Identify and implement aggressive cost cutting and operational efficiencies
- ☐ Optimize portfolio of high-value diversified assets
- ☐ Deliver shareholder wealth creation

Gold Price Outlook

Short-Term Fluctuations Expected

- Despite the gold price decline in early August, gold continues to trade within expected range (approx. \$800 – \$1000/oz)
- 16 month consolidation period with reduced volatility should revive jewelry demand

Gold Price Outlook

Bullish Long-Term Expectations

- Declining mine production, total cost of production rising
 - “Big Four” mine production down 28% from 2001
 - Total mine production down 6% from 2001
 - Lead time for new projects has lengthened, costs escalated

Gold Price Outlook

Bullish Long-Term Expectations

- Gold remains negatively correlated to US dollar
 - Dollar should decline against emerging currencies
 - Current account and trade deficits imply further dollar weakness
