## Forward looking statements

This presentation may contain forward-looking statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Hewlett-Packard Company and its consolidated subsidiaries may differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including but not limited to any projections of revenue, margins, expenses, tax provisions, earnings, cash flows, benefit obligations, share repurchases or other financial items; any statements of the plans, strategies and objectives of management for future operations, including the execution of cost reduction programs and restructuring plans; any statements concerning expected development, performance or market share relating to products or services; any statements regarding future economic conditions or performance; any statements regarding pending investigations, claims or disputes; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Risks, uncertainties and assumptions include macroeconomic and geopolitical trends and events; the execution and performance of contracts by customers, suppliers and partners; the challenge of managing asset levels, including inventory; the difficulty of aligning expense levels with revenue changes; assumptions related to pension and other postretirement costs; expectations and assumptions relating to the execution and timing of cost reduction programs and restructuring plans; the outcome of pending legislation and accounting pronouncements; the resolution of pending investigations, claims and disputes; and other risks that are described in HP's Quarterly Report on Form 10-Q for the fiscal quarter ended April 30, 2007 and HP's other filings with the Securities and Exchange Commission, including HP's Annual Report on Form 10-K for the fiscal year ended October 31, 2006. As in prior quarters, the financial information set forth in this presentation, including tax-related items, reflects estimates based on information available at this time. While HP believes these estimates to be meaningful, these amounts could differ materially from actual reported amounts in HP's Quarterly Report on Form 10-Q for the fiscal quarter ended July 31, 2007. In particular, determining HP's actual tax balances and provisions as of July 31, 2007 and for the fiscal quarter then ended requires extensive internal and external review of tax data (including consolidating and reviewing the tax provisions of numerous domestic and foreign entities), which is being completed in the ordinary course of preparing HP's Form 10-Q. HP assumes no obligation and does not intend to update these forward-looking statements.

## Use of non-GAAP financial information

#### Abstract

HP has included non-GAAP financial measures in this presentation to supplement HP's consolidated condensed financial statements presented on a GAAP basis. Definitions of these non-GAAP financial measures and reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included elsewhere in this presentation.

HP's management uses non-GAAP operating expense, non-GAAP OI\&E, non-GAAP operating profit, non-GAAP net earnings, non-GAAP diluted earnings per share, and HP's non-GAAP tax rate to evaluate and forecast HP's performance before gains, losses or other charges that are considered by HP's management to be outside of HP's core business segment operating results. Gross cash, net cash and free cash flow are liquidity measures that provide useful information to management about the amount of cash available for investment in HP's businesses, funding strategic acquisitions, repurchasing stock and other purposes.

These non-GAAP financial measures may have limitations as analytical tools, and these measures should not be considered in isolation or as a substitute for analysis of HP's results as reported under GAAP. For example, items such as restructuring charges that are excluded from non-GAAP operating expense, non-GAAP operating profit, non-GAAP net earnings, non-GAAP diluted earnings per share and HP's non-GAAP tax rate and items such as gains or losses on investments that are excluded from non-GAAP net earnings and non-GAAP diluted earnings per share can have a material impact on cash flows. HP may not be able to liquidate the long-term investments included in gross cash immediately, which may limit the usefulness of gross cash as a liquidity measure. In addition, free cash flow does not represent the total increase or decrease in the cash balance for the period. The non-GAAP financial information that we provide also may differ from the non-GAAP information provided by other companies. We compensate for the limitations on our use of these non-GAAP financial measures by relying primarily on our GAAP financial statements and using non-GAAP financial measures only supplementally. We also provide robust and detailed reconciliations of each non-GAAP financial measure to the most directly comparable GAAP measure, and we encourage investors to review carefully those reconciliations. We believe that providing these non-GAAP financial measures in addition to the related GAAP measures provides investors with greater transparency to the information used by HP's management in its financial and operational decision-making and allows investors to see HP's results "through the eyes" of management. We further believe tha ( $/ 7 / 7$ providing this information better enables investors to understand HP's operating performance and to evaluate the efficacygof:the methodologytand/informationeused by management to evaluate and measure such performance.

[^0]:    1. All non-GAAP numbers have been adjusted to exclude certain items. A reconciliation of specific adjustments to GAAP results for this quarter and prior periods is included on slide 17 and in the GAAP to non-GAAP slides that appear as part of the supplemental slides of this presentation. A description of HP's use of non-GAAP information is provided on slide 3 under "Use of non-GAAP inancial Information.
    2. Beginning in fiscal 2007, HP no longer excludes gains or losses on investments when calculating financial measures presented on a non-GAAP basis.
[^1]:    1. On June 6, HP upwardly revised Q2 FY06 earnings following the signing of a settlement agreement by the Internal Revenue Service resolving federal income tax matters for HP's 1996 through 1998 tax years. GAA
