

Operation: Careers for Veterans

As part of Jarden's ongoing support of our troops serving domestically and abroad, we initiated Operation: Careers for Veterans in 2007 to identify, consider and hire qualified veterans. Through this initiative we have partnered with the military branches as well as local One Stop Career Centers to inform transitioning Service members of our career opportunities in all of our businesses. We also participate in local job fairs and work with local veteran organizations where available.

If you are a **veteran** and are interested in working for us you may find our current job openings by viewing our job listing at www.jarden.com or by contacting your local One Stop Career Center (if we have a facility in your area).

To view our open positions on our website and to apply online please follow these instructions:

- Go to www.jarden.com and click on the "Careers" button at the top of the page.
- Click on "Explore Career Opportunities".
- A new window will appear with a current listing of positions.
- To view details regarding a position click on the job title.
- To apply for a position, click the "Apply Now" button.

If you need an accommodation to apply online for any of our positions please contact Kim Ligon at kligon@jarden.com.

If you represent a **recruiting firm** or **veterans organization** specializing in the placement of veterans, please send your information to kligon@jarden.com.

Thank you for your service to our country and your interest in Jarden.
