

- Comprehensive, integrated solutions
- Flexible service-oriented architecture (SOA)
- Advanced functionality and integration
- Rapid and cost effective implementations
- Single source for end-to-end software solutions

Today, **Epicor** is a recognised leader and provider of comprehensive global **business solutions**

for midmarket companies and divisions of Fortune 1000 enterprises.

Global Provider

Epicor is a global leader in the midmarket serving over 20,000 customers in over 140 countries with software solutions that support over 30 languages. With more than 20 years of operating history and innovation, Epicor delivers comprehensive enterprise software solutions with a sophistication and maturity that competes with tier-one vendors, but at a fraction of the cost.

A History of Innovation and Leadership

A technology innovator, Epicor was one of the first software companies to develop its solutions on technology platforms optimised for the midmarket. Epicor continues this commitment with leading-edge solutions architected on Microsoft® .NET™ Framework. This strategy has enabled Epicor to continually adapt to the latest technologies available while allowing customers to protect their investment. Utilising Web services, Epicor helps businesses rapidly respond to change, adjust for growth and maintain their competitive advantage.

Solution and Product Portfolio

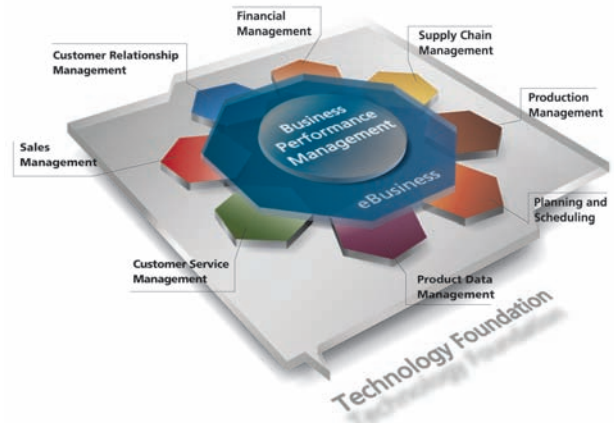

Epikor is dedicated to providing integrated enterprise resource planning (ERP), customer relationship management (CRM) and supply chain management (SCM) software solutions to companies around the world. Leveraging innovative technologies like Web services, Epikor develops end-to-end, industry-specific solutions for manufacturing, distribution, retail, services, and hospitality that enable companies to immediately drive efficiency throughout business operations and build competitive advantage. With the scalability and flexibility to support long-term growth, Epikor's solutions are complemented by a full range of services, providing a single point of accountability to promote a rapid return on investment and low total cost of ownership.

Success Drivers for Profitable Growth

- Execute a balanced strategy of continued core growth and focus on growth through synergistic acquisitions
- Deliver solutions that maximise competitive advantage and return on investment through an industry leading service-oriented architecture, advanced functionality and integration
- Provide comprehensive industry-specific solutions
- Generate recurring revenues through award-winning support, product upgrades and new functionality to an installed base of over 20,000 customers
- Leverage expanded global presence and distribution capabilities in over 140 countries

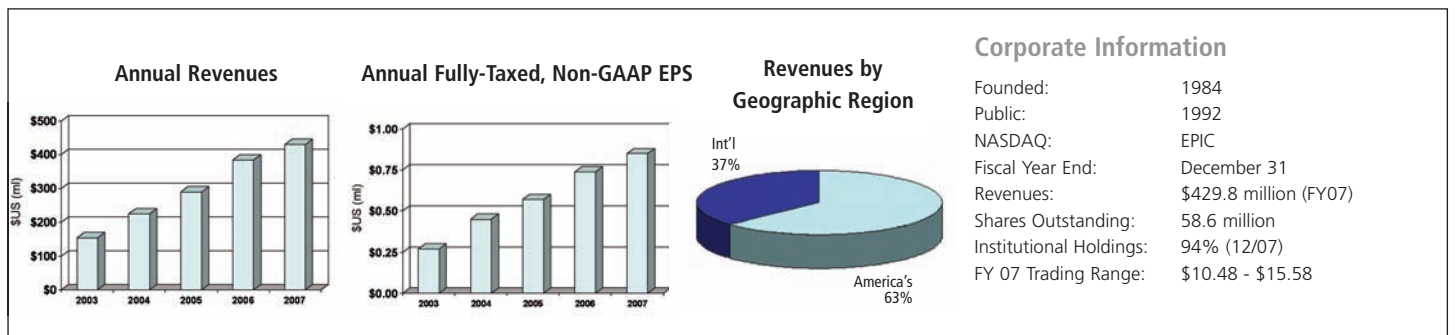

Epikor's world-class solutions and product portfolio offer real-time, industry-specific software solutions for:

- Discrete manufacturing
- Hospitality and entertainment
- Distribution
- Non-profit
- Pharmaceutical
- Retail
- Financial services
- Professional services

"Only Epikor could provide tier-one level functionality and services at a midmarket price point."
