

**DTE Energy®**

**Lynne Ellyn**

Senior Vice President and Chief Information Officer,  
DTE Energy

Lynne Ellyn, 49, is senior vice president and chief information officer at DTE Energy (NYSE: DTE), a diversified energy company involved in the development and management of energy-related businesses and services nationwide.

Ellyn leads the organization responsible for computer and operating systems that support the operation of the company, and for maintaining the information services needed for employees to do their jobs. The organization also provides strategic technical web-based solutions for business problems.

Ellyn returns to DTE Energy after spending a year serving as chief information officer of the San Francisco-based Organic Online Internet media services company.

Ellyn originally joined DTE Energy in 1998 as vice president, information systems. From 1996-1998, she served as vice president of business applications at Netscape Communications Corp. Prior to that, she was acting vice president of Global Systems Deployment at Xerox Corp. for nearly three years. She also worked at Chrysler Corp. from 1984 to 1993.

Ellyn earned a bachelor of science degree in computer science and management from Oakland University, and a master of business administration degree in international business from Michigan State University.
