(1) Includes operating fuel and power, general and administrative expenses, taxes-other than income taxes and gains on sales of assets.

(2) Reflects the Pioneer plant as discontinued operations. The Pioneer plant was sold during the first quarter of 2006.

(3) Twelve month period ended December 31, 2007 includes a \$59.6 million gain on sale of ownership interest in Mont Belvieu Storage Partners, L.P.

(4) The per unit calculation is based on the weighted-average number of units and net income allocated to limited partners.

RECENT PARTNERSHIP DEVELOPMENTS

- April 2008 - increased the current quarterly cash distribution rate to partners to \$0.71 per unit, a 3.6 percent increase in the annualized rate over the quarterly distribution paid with respect to the first quarter of 2007.
- February 2008 - entered marine transportation business for refined products, crude oil and lube products through the acquisition of 51 push boats, 106 barges and the economic benefit of certain related commercial agreements. This business serves refineries and storage terminals along the Mississippi, Illinois and Ohio rivers, as well as the Intracoastal Waterway between Texas and Florida.
- October 2007 - launched cash Distribution Reinvestment Plan (DRIP). The plan is available to all unitholders and offers a simple and convenient means of investing in TEPPCO Partners at a discount currently set at 5%.
- October 2007 - placed into service three new crude oil storage tanks at its Cushing, Oklahoma facility, representing a 900,000 barrel increase in its storage capacity.
- August 2007 - announced the purchase of an underground liquid petroleum gas (LPG) storage cavern adjacent to its Todhunter Terminal in Middletown, Ohio. The additional 300,000 barrels of storage capacity complements TEPPCO's recent expansion of its LPG pipeline between Greensburg and Eagle, Pennsylvania.
- July 2007 - TEPPCO Partners and Enterprise Products Partners, through their Jonah Gas Gathering Company joint venture, announced the completion of 67,500 horsepower of compression installed at the Bridger Station in Sublette County, Wyoming. The additional compression increased the capacity of the Jonah Gas Gathering system to 2 billion cubic feet per day from 1.75 Bcf/d.
